its reflects the increasing priority to better integrate patient care, not only in the hospital but also across primary and long-term care settings.

In addition, the Oral Paper and Poster Competitions will provide an excellent platform for our young colleagues to present their latest research findings, which we will hear about at the meeting.

We also provide a "trigger quiz" for our general practitioners to elevate their knowledge specially related to hypertension and its problems.

For those whose going to know indepth hypertension related to cardiovascular; nephrology and neurology we also have a workshop in three different classes for each knowledge.

For these reasons and many more, I hope you'll join us in Jakarta next February 2018 and looking forward to welcoming your active contribution to what we know will be a lively and outstanding meeting.
